ŠTUDENTSKE ANKETE UNIVERZE V LJUBLJANI
EVALVACIJSKO POROČILO ZA PROGRAME I IN II STOPNJE

Pregledna analiza po članicah

2017/2018 - 2021/2022

Ljubljana, 13. februar 2023

Povzetek

Poročilo se nanaša na rezultate študentskih anket, ki so bile v študijskem letu 2021/2022 izvedene na članicah UL. V tabelah so k skupnim povprečjem posameznih komponent dodana tudi skupna povprečja posameznih komponent za leta 2017/2018 - 2021/2022. Poročilo obravnava tri ankete, izvedene med vsemi redno vpisanimi študenti na prvi (I.) in drugi (II.) stopnji študija: (a) anketa o predmetih in izvajalcih PRED izpitom, (b) anketa o predmetih PO izpitu in (c) anketa o splošnih vidikih študija.

Tokratno poročilo se omejuje zgolj na izračune.

V metodološkem smislu velja spomniti, da imamo opraviti s populacijo, zato so vse razlike med povprečji (npr. med dvema letoma, med dvema komponentama, med dvema članicama) že po definiciji populacijske razlike; statistična značilnost torej ni vprašanje. Vprašanje je lahko le pomembnost razlik in odgovarjajoči vzroki.

Zaradi velikega števila izvajalcev in predmetov pa bi lahko razlike obravnavali kot statistično značilne tako na nivoju UL kot tudi na nivoju vsake članice – tudi v primeru, ko bi predpostavili, da so vsakoletni rezultati realizacije neke fiktivne superpopulacije oziroma superpopulacijskega modela. Na tej osnovi bi imeli nato opravka z vzorčenjem in z običajnimi pristopi statističnega sklepanja in statistične značilnosti. Tudi v takem primeru razlike oziroma spremembe (npr. za 0.1 točke) praviloma ne bi bile slučajne, ampak statistično značilne, kar pomeni, da zanje obstaja določen vzrok. To so lahko povečani naporci članic, lahko pa tudi zunanji vzroki in okoliščine (npr. sprememba programa, zamenjava izvajalcev, posebnosti novih generacij, selitev v nove prostore ipd.).

Prav tako je potrebno izpostaviti, da se vsa povprečja za vse komponente ocenjevanj predmetov in izvajalcev na vseh članicah gibljejo v zelo ozkem intervalu 4.0-4.6. Zato lahko na nivoju UL že razliko za 0.1 (npr. 4.2-4.3) obravnavamo kot razmeroma pomembno in vredno vsebinske interpretacije oziroma analize potencialnih vzrokov. V grobem bi zato lahko rekli, da sprememba za 0.1 na nivoju UL skoraj zagotovo pomeni nek vsebinski premik, ki ima svoje razloge. Podobno velja večinoma tudi za spremembe na nivoju članic (posebej za večje članice). Zagotovo pa je na nivoju članice statistično značilna in tudi pomembna (vredna vsebinskega razmisleka in interpretacije) sprememba za 0.3 (npr. 3.1-3.4) in večinoma tudi za 0.2 točke.

Ocene za članice (EF, FE, FRI, FKKT in FU) imajo nekoliko drugačno izvedbo, tako v tehničnem (sistemu za anketiranje) kot v metodološkem smislu (uporablja se prijavnici in ne semestrski pristop) k rekrutirajujočim študentom v anketo in tudi nekoliko drugačen vprašalnik). Nekatere ocene zato niso povsem primerljive, določene ocene pa za nekatere članice manjkajo.

KAZALO

| | | |
|----------|--|-----------|
